

Successive bearing intersections

Channel 12 · $\pm 1^\circ$ bounded bearings · kilometre-scale ambiguity contracts to a 13.8 m MEC

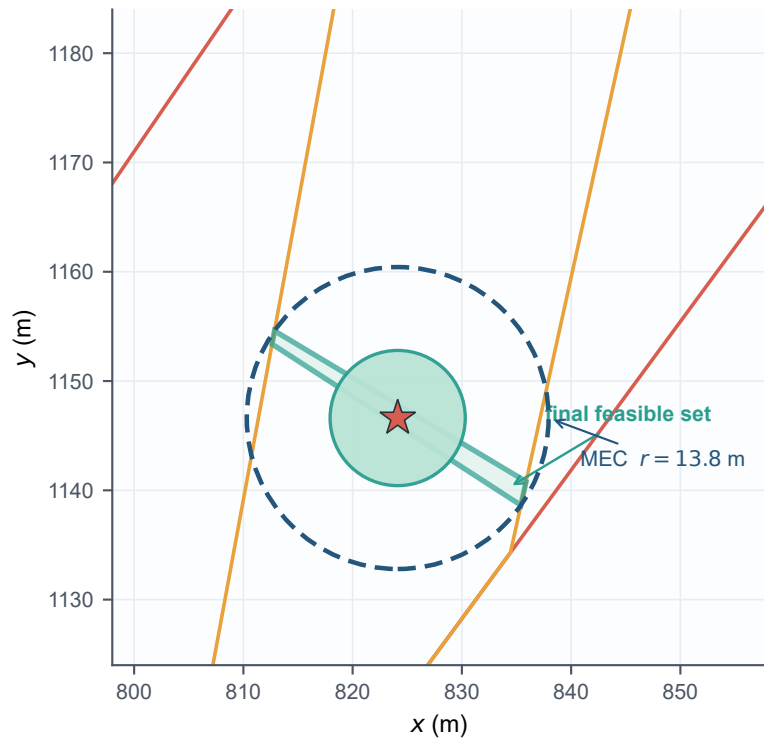

(a) Observation geometry

Three bearings over the full trajectory

(b) Final localization certificate

MEC radius: 750.2 m $\rightarrow$ 78.6 m $\rightarrow$ 13.8 m

first feasible set
second feasible set

final feasible set
minimum enclosing circle

guaranteed-clear disk $B(c, 20 - r)$
certified clear point
